localLINUX engineers complete VSP and VTSP VMware Certifications

Lubbock - localLINUX, a locally-owned firm offering technology consultation, VMware solutions, managed services, and security and networking solutions, has expanded its commitment to virtualization endeavors by completing VSP and VTSP VMware Certifications.

Completion of these certifications courses offered by VMware is an important step in our commitment to quality services through the VMware suite of products, says Michael Strong, COO.

"The VSP (VMware Sales Professional) and VTSP (VMware Technical Sales Professional) certifications provide technical knowledge for pre-sales discussions our engineers must be familiar with," he says. "Our engineers are capable of providing technical answers to questions related to the VMware line of products and solutions."

Located at 5502 58th street, suite 400, in Lubbock, localLINUX can be found on the Web at: www.locallinux.com.

localLINUX is a VMware Professional Partner.
